

## 40.230 COMMERCIAL, BUSINESS, MIXED USE AND INDUSTRIAL DISTRICTS

### 40.230.030 EMPLOYMENT CENTER DISTRICTS (OC, BP)

A. Purpose. Employment Center District is implemented by both Office Campus (OC) and Business Park (BP) zones to provide for a wide range of employment opportunities. The regulations are intended to establish appropriate development and performance standards for employment center developments and provide sensitivity to abutting zones. Development sites within the OC and BP zones may not be less than five (5) acres in size and shall provide a park-like setting with uses subject to high development and operational standards devoid of nuisance factors, hazards, and potentially high parking or public facility demands. The OC and BP zones may be applied to areas designated for employment center districts by the comprehensive plan (refer to Section 40.230.040(A)(6)).

1. The Office Campus (OC) zone provides for business and professional services, research and development, and corporate offices along with accessory commercial uses. This district shall be pedestrian and transit oriented while at the same time providing adequate auto facilities. The regulations in this chapter are intended to minimize the presence of nuisance factors and hazards. The application of this district should not result in a predominance of commercial uses in an area designated for noncommercial activities by the comprehensive plan.

2. The Business Park (BP) zone provides for the development of uses including: limited light manufacturing and wholesale trade, light warehousing, business and professional services, research, business, and corporate offices and other similar compatible or supporting enterprises not oriented to the general public.

B. Uses. Table 40.230.030-1 is a list of allowable uses in the OC and BP districts:

"P" Permitted uses.

"R/A" Uses permitted upon Review and Approval as set forth in Section 40.520.020.

"C" Conditional uses which may be permitted subject to the approval of a Conditional Use Permit as set forth in Section 40.520.030.

"X" Uses specifically prohibited. Where there are special use standards or restrictions for a listed use, the applicable code section(s) in Special Uses (Chapter 40.260) or other applicable chapter is noted in the "Special Standards" column.

The following list of permitted uses is based on the North American Industrial Classification System (NAICS). NAICS is organized in a hierarchical structure much like the existing SIC (Standard Industrial Classification). NAICS industries are identified by a 6-digit code, in contrast to the 4-digit SIC code. The longer code accommodates the larger number of sectors and allows more flexibility in designating subsectors. The use of NAICS codes for permitted uses refers only to the use of a particular site, rather than the type of industry involved. For example, office uses for manufacturing firms are treated as offices and are not permitted in the industrial zones.

- The first two digits designate a major economic sector (formerly division) such as agriculture or manufacturing.
- The third digit designates an economic subsector (formerly major group) such as crop production or apparel manufacturing.
- The fourth digit designates an industry group, such as grain and oil seed farming or fiber, yarn and thread mills.
- The fifth digit designates the NAICS industry such as wheat farming or broadwoven fabric mills.

Retail uses are marked with a "1" in Table 40.230.030-1 below. See the footnotes at the end of the table for an explanation of permitted development.

<b>Table 40.230.030-1 Uses</b>				<b>OC</b>	<b>BP</b>

<b>A. Resource Uses.</b>					
<b>11 - Agriculture, Forestry, Fishing and Hunting</b>					
111	Crop production				
	1111	Oilseed and grain farming			
		11111	Soybean farming	P	P
		11112	Oilseed (except soybean) farming	P	P
		11113	Dry pea and bean farming	P	P
		11114	Wheat farming	P	P
		11115	Corn farming	P	P
		11116	Rice farming	P	P
		11119	Other grain farming		
			111191 Oilseed and grain combination farming	P	P
			111199 Other grain farming	P	P
	1112	Vegetable and melon farming			
		11121	Vegetable and melon farming		
			111211 Potato farming	P	P
			111219 Other vegetable (except potato) and melon farming	P	P
	1113	Fruit and tree nut farming			
		11131	Orange groves	P	P
		11132	Citrus (except orange) groves	P	P
		11133	Noncitrus fruit and tree nut farming		
			111331 Apple orchards	P	P
			111332 Grape vineyards	P	P
			111333 Strawberry farming	P	P
			111334 Berry (except strawberry) farming	P	P
			111335 Tree nut farming	P	P
			111336 Fruit and tree nut combination farming	P	P
			111339 Other noncitrus fruit farming	P	P
	1114	Greenhouse, nursery, and floriculture production			
		11141	Food crops grown under cover		
			111411 Mushroom production	P	P
			111419 Other food crops grown under cover	P	P
		11142	Nursery and floriculture production		
			111421 Nursery and tree production	P	P
			111422 Floriculture production	P	P
	1119	Other crop farming			
		11191	Tobacco farming	P	P
		11192	Cotton farming	P	P
		11193	Sugarcane farming	P	P
		11194	Hay farming	P	P
		11199	All other crop farming		
			111991 Sugar beet farming	P	P
			111992 Peanut farming	P	P
			111998 All other miscellaneous crop farming	P	P

<b>31-33 - Manufacturing</b>						
		33411	Computer and peripheral equipment manufacturing			
			334111	Electronic computer manufacturing	X	P
			334112	Computer storage device manufacturing	X	P
			334113	Computer terminal manufacturing	X	P
			334119	Other computer peripheral equipment manufacturing	X	P
	3342	Communications equipment manufacturing				
		33421	Telephone apparatus manufacturing		X	P
		33422	Radio and television broadcasting and wireless communications equipment manufacturing		X	P
		33429	Other communications equipment manufacturing		X	P
	3343	Audio and video equipment manufacturing				
		33431	Audio and video equipment manufacturing		X	P
	3344	Semiconductor and other electronic component manufacturing				
		33441	Semiconductor and other electronic component manufacturing			
			334411	Electron tube manufacturing	X	P
			334412	Bare printed circuit board manufacturing	X	P
			334413	Semiconductor and related device manufacturing	X	P
			334414	Electronic capacitor manufacturing	X	P
			334415	Electronic resistor manufacturing	X	P
			334416	Electronic coil, transformer, and other inductor manufacturing	X	P
			334417	Electronic connector manufacturing	X	P
			334418	Printed circuit assembly (electronic assembly) manufacturing	X	P
			334419	Other electronic component manufacturing	X	P
	3345	Navigational, measuring, electromedical, and control instruments manufacturing				
		33451	Navigational, measuring, electromedical, and control instruments manufacturing			
			334510	Electromedical and electrotherapeutic apparatus manufacturing	X	P
			334511	Search, detection, navigation, guidance, aeronautical, and nautical system and instrument manufacturing	X	P
			334512	Automatic environmental control manufacturing for residential, commercial, and appliance use	X	P
			334513	Instruments and related products manufacturing for measuring, displaying, and controlling industrial process variables	X	P
			334514	Totalizing fluid meter and counting device manufacturing	X	P
			334515	Instrument manufacturing for measuring and testing electricity and electrical signals	X	P
			334516	Analytical laboratory instrument manufacturing	X	P
			334517	Irradiation apparatus manufacturing	X	P
			334518	Watch, clock, and part manufacturing	X	P
			334519	Other measuring and controlling device manufacturing	X	P

e.	Public buildings and other structures such as police and fire substations		P	P
f.	Drive-through facilities		X	X
g.	Correctional institutions		X	C
<p><i>Notes:</i></p> <p>NAICS code classification is for primary use of site, not business classification.</p> <p><sup>1</sup> Commercial and service uses are an accessory to office or manufacturing building uses. Commercial and service uses shall not exceed ten percent (10%) of the gross floor area of the development or building within which they are located; provided, through the commercial retail bonus standards below. A freestanding commercial/service building(s) shall be permitted in a complex. Where commercial/service uses are approved, a note shall be placed on the final site plan indicating the cumulative amount of the commercial/service area that has been approved and the residual amount that is available for use.</p> <p><sup>2</sup> (Reserved for future use).</p> <p><sup>3</sup> Permitted only in association with a use permitted in the OC or BP districts unless publicly acquired for such use prior to October 24, 2000. Uses that produce nuisance factors, such as noise, heat, light, glare and odor, outside of the space in which they are located are not acceptable in this district. All uses must meet the performance standards section of this code See Table 40.260.250-1.</p> <p><sup>4</sup> (Reserved for future use).</p> <p><sup>5</sup> The repair and maintenance subsector does not include all establishments that do repair and maintenance. For example, a substantial amount of repair is done by establishments that also manufacture machinery, equipment and other goods. These establishments are included in the manufacturing sector in NAICS. In addition, repair of transportation equipment is often provided by or based at transportation facilities, such as airports, seaports, and these activities are included in the transportation and warehousing sector.</p> <p>Excluded from this subsector are establishments primarily engaged in rebuilding or remanufacturing machinery and equipment. These are classified in Sector 31-33, Manufacturing. Also excluded are retail establishments that provide after-sale services and repair. These are classified in Sector 44-45, Retail trade.</p>				

- D. Commercial retail bonus in OC and BP district. Additional floor area beyond ten percent (10%) of total may be devoted to commercial uses if the following conditions are met. Density bonuses are expressed as a percentage of total floor area of the development or building:
1. All required parking is contained within the building or parking structure associated with the development: 2.5% bonus for each building served by the qualifying parking structure.
  2. The entrances to the building are oriented to a transit stop: 2.5% bonus.
  3. Child care facilities are provided within the development: 2.5% bonus for each building served by the child care facility.
  4. Any six (6) of the following enhanced pedestrian spaces and amenities are provided: plazas, arcades, galleries, courtyards, outdoor cafes, widened sidewalks (more than six (6) feet wide outside of public right-of-way), benches, shelters, street furniture, public art or kiosks: 2.5% bonus.

Table 40.230.030-2: Site and Lot Requirements

Zoning District	Site or Lot	Minimum Area	Minimum Width (feet)	Minimum Depth (feet)
OC	Site	5 acres	None	None
	Lot	20,000 square feet <sup>1</sup>	100	100
BP	Site	5 acres	None	None
	Lot	6,000 square feet	None	None

**Table 40.230.030-3: Setbacks, Lot Coverage and Building Height**

Zoning District	Site or Lot	Minimum Setbacks <b>Abutting Non-Residential</b>			Maximum Lot Coverage	Maximum Building Height (feet)
		Front (feet)	Side (feet)	Rear (feet)		
BP OC	Site	35	25	5	50%	72 <sup>2</sup>
	Lot	35	None	None	None	

Zoning District	Site or Lot	Minimum Setbacks <b>Abutting Residential</b>				Maximum Building Height (feet)
		Residential Zone	Front (feet)	Side (feet)	Rear (feet)	
BP	Site	Urban Low	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	35
		Urban Medium	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	48 <sup>2</sup>
		Urban High	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	75, 25 <sup>1</sup>	72 <sup>2</sup>
OC	Lot	all	35	None	None	35

<sup>1</sup> The minimum site setback shall be seventy-five (75) feet for any lot line abutting a residential zone, unless berming and landscaping approved by the responsible official is provided which will effectively screen and buffer the business park activities from the residential district which it abuts; in which case, minimum setback may be twenty-five (25) feet.

<sup>2</sup> Excluding unique architectural features such as towers, cupolas, peaked roofs.

## E. Development standards

1. New lots and structures and additions to structures subject to this section shall comply with the applicable standards for sites, lots and building height, and setbacks in Tables 40.230.030-2 and 40.230.030-3, subject to the provisions of Chapter 40.200 and Section 40.550.020. Site plan review is required for all new development and modifications to existing permitted development unless expressly exempted by this title (see Section 40.520.040).
2. Service Roads, Spur Tracks, Hard Stands, Outside Storage Area, Etc. No service road, spur track, hard stand, outside storage area, etc., shall be permitted within required setbacks adjoining residential districts.
3. Setbacks. No setbacks are required at points where side or rear lot lines abut a railroad right-of-way or spur tracks.
4. Fences—Fencing is permitted inside of a boundary line where it is necessary to protect property of the industry or the business concerned. No sight-obscuring fence shall be constructed abutting a major arterial or other public right-of-way in excess of four (4) feet in height within the perimeter setbacks. Any chain link or other wire fencing must be screened with green growing plant materials or contain slats.
5. Site landscaping and design plan. Development within this zoning district shall be subject to site plan review pursuant to Section 40.520.040, prior to the issuance of a building permit; which review may be conducted concurrent with the processing of building permits. In addition to the requirements of Section 40.520.040, the following requirements shall apply:
  - a. Blank walls are discouraged next to residential zones. If a blank wall is adjacent to residential zones the applicant shall provide and maintain a vegetative buffer of at least eleven (11) feet high that creates a varied appearance to the blank wall. Other features such as false or display windows, artwork, and varied building materials are acceptable.
  - b. Building facades facing public streets shall have fifty percent (50%) of the total surface area of the wall transparent.
  - c. Parking areas adjacent to rights-of-way shall be physically separated from the rights-of-way by landscaping or other features to a height of three (3) feet. A combination of walls, berms and landscape materials is highly recommended. Sidewalks may be placed within this landscaping if the street is defined as a collector or arterial with a speed limit of thirty-five (35) mph or above, in order to separate the pedestrian from heavy or high speed traffic on adjacent roads.
  - d. Primary building entrances shall be physically oriented to the street or to a pedestrian walkway.
  - e. If a development is located within two hundred fifty (250) feet of an existing or proposed transit stop the applicant shall work with the transit agency in locating a transit stop and shelter directly adjacent or as close as possible to the main building entrance.
  - f. All off-street parking areas shall be planted with a minimum of one (1) deciduous tree for every six (6) parking spaces. Trees shall be of such species and spacing that a canopy effect shall result. Trees must be dispersed throughout the parking lot.
  - g. Required setback areas adjacent to streets and those abutting a residential district shall be continuously maintained in lawn or live ground- cover. Allowed uses in these areas are bikeways, pedestrian paths and water quality facilities.
  - h. A minimum of twenty percent (20%) of the site shall be landscaped. Vegetated stormwater treatment facilities and pedestrian plazas may be used to satisfy the requirement.
    - (1) To qualify as a pedestrian plaza the following conditions must be met:
      - (a) Minimum Size. A minimum of ten (10) feet depth and width with a minimum size of six hundred fifty (650) square feet.
      - (b) Paving. A minimum of eighty percent (80%) of the area shall be paved in a decorative paver or textured, colored concrete. Asphalt is prohibited as a paver in pedestrian plazas.
  - i. Structures and open spaces should be clustered on-site to maximize the campus and open space qualities within the development.
  - j. When security fencing is required it shall be a combination of solid wall, wrought iron, dense hedges or other similar treatment. Long expanses of fences or walls shall be intersperse with

- trees or hedges to break up the appearance of the wall at least every fifty (50) feet for a distance of at least five (5) feet. All required landscaping shall be installed prior to occupancy, otherwise approved by the responsible official pursuant to Section 40.320.010(G).
- k. Required setbacks adjacent to streets and those abutting a residential district shall be continuously maintained in lawn or line ground cover, with such line ground cover and trees or shrubs established and maintained in a manner providing a park-like character to the property.
  - l. Areas which are to be maintained in their natural setting shall be so designated on a landscape plan, and subject to the review and approval of the responsible official.
  - m. The outside storage of equipment or materials may be permitted only when contained by a site-obscuring fence or a landscaped screening not less than six (6) feet high. Outside storage shall not exceed the height of fencing or landscaping.
  - n. All mechanical heating and ventilating equipment shall be visually screened, as approved by the site plan review process.
6. Pedestrian access plan. An on-site pedestrian circulation system must be provided, which connects the street to the public entrances of the structure(s) on site.
    - a. The circulation system shall be hard surfaced and be at least five (5) feet wide.
    - b. Where the system crosses driveways, parking, and/or loading areas, the system must be clearly identifiable through the use of elevation changes, speed bumps, varied paving materials or other similar methods approved by the reviewing authority and in compliance with the Americans with Disabilities Act (ADA).
    - c. The on-site pedestrian circulation system and parking areas must be lighted to a level which provides adequate lighting so that parking areas can be used safely when natural light is not present.
    - d. The pedestrian system must connect the site to adjacent streets and transit stops. The pedestrian system must also connect on-site public open space or parks, commercial, office and institutional developments to adjacent like uses and developments for all buildings set back forty-five (45) feet or farther from the street lot line, when existing development does not preclude such connection. Development patterns must not preclude eventual site-to-site connections, even if an adjoining site is not planned for development at the time of the applicant's development.
  7. Performance standards. No land or structure shall be used or occupied within this district unless there is compliance with the following minimum performance standards:
    - a. Maximum permissible noise levels shall be as determined by WAC 173-60, as amended.
    - b. Vibration. Vibration other than that caused by highway vehicles, trains, and aircraft which is discernible without instruments at the property line of the use concerned, is prohibited.
    - c. Smoke and Particulate Matter. Air emissions must be within legal limits as approved by the Southwest Clean Air Agency.
    - d. Odors. The emission of noxious gases or matter in such quantities as to be readily detectable at any point beyond the property line of the use creating such odors, is prohibited.
    - e. Heat and Glare. Except for exterior lighting, operations producing heat and glare shall be conducted entirely within an enclosed building. Exterior lighting shall be designed to shield surrounding streets and land uses from nuisance and glare.
  7. Signs. Signs shall be permitted according to the provisions of Chapter 40.310.
  8. Off-street parking and loading. Off-street parking shall be provided as required in Chapter 40.340.
  9. Administration. As a condition for the granting of a building permit and/or site plan approval, at the request of the responsible official, information sufficient to determine the degree of compliance with the standards in this title, shall be furnished by the applicant. Such request may include submission of continuous records of operation, for periodic checks to assure maintenance of standards, or special surveys.
